Dear Recent and Soon-to-be Graduates,

I'm sure many of you have been wondering about the upcoming graduation ceremony in light of the current circumstances. Given the uncertainty of government restrictions, health concerns, and the delay some students will encounter in completing clinic requirements, the college decided last Friday to postpone the graduation ceremony until a later date. A new date has not been decided, but we anticipate it will be no earlier than October of this year.

I understand that this news may be disappointing, and I thank you for your patience as we work to decide on a new ceremony date that will take all things into consideration. Any purchased guest tickets will be reserved for the future ceremony.

The school will be in touch as soon as a new date is decided. Meanwhile, please do not worry about registering by April 1st as originally indicated. We will be asking grads to register again as the new ceremony date draws near.

Hope you are all hanging in there and staying safe.

Take Care,  
Robbyn
