

# Montana Acupuncture & Herbal Medicine Practice for Sale

After a full career and 13 years at this practice location, I'll be retiring and turning my attention to a range of different projects! As a result, Montana Acupuncture—my practice in Missoula—is on the market... and **it needs a new owner**. I created a detailed listing for this **thriving, in-demand** practice here:

I am very pleased with what Montana Acupuncture is today: a **reputable, high-net, scalable practice** that is **well known for clinical efficacy by area residents and providers alike**. It affords me a **great income** with **3.5 clinic days per week**.

This is an excellent opportunity for both **out-of-staters** (Missoula offers an incredible quality of life) and **in-staters** alike:

- **Lucrative:** a reliable 6-figure income for a new owner working part-time
- **Outstanding location:** Missoula is known for its gorgeous nature as well as the idyllic small-town life (~80k residents, complete with a university, culture and more)
- **High demand:** Missoula may not be a crowded big city, but demand here is high. I alone have been seeing an average of 56 patients per week in just 3.5 days, and our results draw people in from towns as far as 3 hours away.
- **Most established practice in the area:** we have built our practice and reputation over the last 13 years and are very well known for our clinical efficacy.
- **Privileged relationship with the VA:** We get **near-daily referrals** from the VA. We know the ropes to **get paid well and quickly**, and the veteran population is known for their great appreciation and high compliance. Bonus: the VA is opening an additional facility just down the street!
